

ROHITH R GOWDA

Java Full Stack Developer

Bengaluru, India | 8971487731 | rohithrgowda23@gmail.com | linkedin.com/in/rohithrgowda | github.com/Rohithrgowda23

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience designing, developing, and deploying scalable web applications using Java, Spring Boot, React.js, MySQL, WebSocket, and RESTful APIs. Skilled in Data Structures and Algorithms, secure backend architecture, API integration, and database design. Experienced with Generative AI tools including LLMs, RAG, and vector databases. Strong problem-solver with a collaborative, detail-oriented approach to delivering clean, efficient solutions.

TECHNICAL SKILLS

Backend: Java, Spring Boot, REST API Design, JDBC, Servlets, Hibernate, JPA, Spring Security, JWT Authentication, Microservices, OAuth 2.0

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, Tailwind CSS

Database: MySQL, SQL Server, Database Design, Query Optimization, CRUD Operations

AI & Generative AI: LLMs, Prompt Engineering, RAG, AI Chatbots, Semantic Search, Embeddings, Vector Databases, Tool Calling, Spring AI, OpenAI API, Amazon Bedrock, Qdrant, Pinecone, Chroma

Tools & DevOps: Git, GitHub, Postman, Maven, Docker, VS Code, IntelliJ IDEA, AWS Basics

Core Concepts: Data Structures & Algorithms, SDLC, API Design, Debugging, JUnit, Mockito

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — *JupiterKings Technologies*

- Developed and maintained web application modules using Java, Spring Boot, React.js, and MySQL.
- Designed and built RESTful APIs to enable seamless communication between frontend and backend systems.
- Built responsive frontend components using React.js and integrated them with backend microservices.
- Participated in database design, SQL query optimization, and backend business logic implementation.

Advanced Java Full Stack Trainee — *Besant Technologies (E&ICT Academy)*

- Completed intensive training in Advanced Java, JDBC, Servlets, Spring Boot, React.js, HTML, CSS, JavaScript, and MySQL.
- Built multiple full-stack applications integrating frontend and backend systems via RESTful API communication.
- Practiced API development, relational database management, JWT authentication, and deployment workflows.
- Worked on real-world scenarios involving CRUD operations, exception handling, and validation logic.

PROJECTS

AI Resume Analyser | Live: <https://resumefrontend-ten.vercel.app/>

Technologies: Java, Spring Boot AI, Spring Security, JWT, React.js, MySQL, Google OAuth 2.0, Docker, LLM, Prompt Engineering

- Built an AI-powered resume analysis platform that evaluates resumes against target job roles and delivers detailed feedback.
- Implemented secure authentication using Spring Security, JWT, Google OAuth 2.0, email OTP verification, and password reset.
- Developed resume parsing and analysis features generating ATS scores, extracting skills, and identifying skill gaps.
- Containerized the application using Docker to streamline deployment and scalability.

Real-Time Chat Application | Live: <https://realchat-frontend-kohl.vercel.app/>

Technologies: Java, Spring Boot, React.js, WebSocket, STOMP, SockJS, MySQL

- Built a real-time messaging system using WebSocket for instant bidirectional communication.
- Implemented the STOMP protocol over WebSocket for structured message routing.
- Optimized WebSocket connections to reduce latency and improve message delivery speed.
- Designed a MySQL schema for storing users, messages, chat rooms, and timestamps.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science

Visvesvaraya Technological University (VTU) | Graduated: 2025 | CGPA: 7.1

CERTIFICATIONS

- Advanced Java Full Stack Development — Besant Technologies (E&ICT Academy)
- Full Stack Development — JupiterKings Technologies
